Our Team at Work

"I first joined The Briar Team in 1990 at the age of eighteen, having never worked around any heavy equipment. Once I showed my willingness to learn and punctuality, my superiors then took me under their wing. After seven years of training and a few night courses, I now am running the crews and have both hands on a successful career ahead."

TOMMY RYAN

Pipe Superintendent

"I started with The Briar Team in 1989 as a Grade Foreman. Through the next six years, I also worked as Pipe Foreman and Dirt Foreman. I was given the chance to learn all the different aspects of the company as part of my growth. My current position with The Briar Team is Project Manager."
